

SAFETY POLICY

NUOVA ASP S.r.l., in performing its activities, agrees to consider the human health and safety of its employees as an inalienable duty, an on-going commitment and a constant component of its mission.

1. **COMPLY** with the contents and principles set forth by law on safety and industrial hygiene applicable to the activities, products and services of the Plant; if possible, apply at its own discretion, further measures deemed necessary, also without binding laws;
2. **PROMOTE** any initiative to prevent accidents in any activity, which can compromise the safety of the collaborators and of whoever works at our premises;
3. **PROVIDE** the resources, in line with the available budgets, which are required to guarantee a suitable Safety Management System, in relation to the activity carried out at our Plant;
4. **AWAKEN** and inform all employees and collaborators of external companies on the need to comply with safety and hygiene rules, applicable to the activities carried out at the Plant; train the collaborators to take measures in anomalous and emergency conditions, in order to minimize possible consequences;
5. **PURSUE** continuous improvement in managing safety on Site, also by identifying the risks associated to the activities performed and defining the objectives to reduce them, in compliance with the development plans and available budget;
6. **PROMOTE** a transparent and collaborative relation with public, private subjects and local communities.

This Safety Policy will be disclosed to all collaborators and spread outside the Plant through common communication means.

Pantigliate (MI), **May 2015**

The Management

F. LATTANZIO
